

29 Wednesday
25 Jamadi-ul-Awwal

S	M	T	W	T	F	S
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31	

Classes : Logical ~~calculus~~ collection of attributes & methods.

Objects : Instances of class.

Example :

→ We want to make a superhero that wears 'Red cape' & 'he will fly'.
And we will give him life with snap of finger

30 Thursday
26 Jamadi-ul-Awwal

So class is where you will provide all description -

↳ Giving life with snap .. mean you are creating object (instance of class to make your class alive) -

↳ which is also called object instantiation.
